Operating Systems: Ubuntu.

TECHNICAL EXPERIENCE

Base Camp Coding Academy , July 2017 - present
Fake Instagram
Goal: Create a (fake Instagram) with the ability to upload, filter and comment on pictures.
- Applied Pillow to manipulate images with forms to apply a default filter.
- Utilized Django Forms and Models for saving user uploaded images.
- Operates using the Server, a back-end support, which helps store all image uploads and PIL filters.

Gladiator Game
Goal: Create a program about a gladiator game.
- Utilized Javascript to develop application.
- Provides players an easy and quick way to select type of attack and to heal.
- Presents the loser and a restart button when the game is over.
- Maintains a positive user experience by initializing all player's stats to be equal.

Music Store Website
Goal: Create a front-end for a fake music store.
- Utilized Javascript to develop application.
- Allows user to easily view and choose items that are in stock to be purchased.
- Exercises JSON to store each objects information.
- Provides an add-to-cart feature for user to see cost and amount of items purchased.

WORK EXPERIENCE

Mi Pueblo Mexican Restaurant
Batesville, MS, May 30, 2013 - December 31, 2015
- Operated as a waiter.
- Developed strong relationships with the cook staff which created better communications between the customer orders and the cook, resulting in a great customer experience.
- Used fluent bilingual skills, spanish and english, to enhance communication between the cook and customers.
- Employed as a busboy initially and promoted as a waiter after two weeks on the job.

LEADERSHIP ROLES

Played high school football six consecutive years. Mentored younger players on focus, having good behavior, making better choices, and be the best student athlete they could be.

VOLUNTEER ACTIVITIES

Counselor for MDA (Muscular Dystrophy Association) Summer for two years.
